Subject: RE: a pleasure to meet you last night

Konstantine, of the many social / business events I have had over my career, the visit with Proteus Group was exceptional; it was very relaxing and enjoyable to get a feel for the human dynamics of your team. I found the visit to be very productive on both a technical and personal level. The five hours of critical analysis and brainstorming I shared with your team will pay big dividends in my opinion.

Thanks again for a great time and opportunity to visit the Proteus team.

Sincerely,

John E. Crouch
Plant Operations Manager
